

# Happy Holidays! To Thank You for Your Support!

## Your Support Makes Our Work Possible!

**N**orfolk built on "Partnering Equine to End Domestic Violence" working in the three states of New York's Office of Child Abuse Services and the state's Department of Social Services. We've been able to expand our reach, but also engaged in health care education with the state's Office of the State Attorney General, State Bar Association in Virginia.

NYSED's recent change in the way for "Partnering Equine to End Domestic Violence" working with New York state agencies, used as a model for working with the Department's Office of Domestic Violence. The initiative is a collaborative effort between NYSED's Department of Social Services, Office of Child Abuse Services, and the State Bar Association in Virginia. This new initiative focuses on providing education to the public, as well as providing support to victims of domestic violence. The initiative is a collaborative effort between NYSED's Department of Social Services, Office of Child Abuse Services, and the State Bar Association in Virginia. This new initiative focuses on providing education to the public, as well as providing support to victims of domestic violence.
